

# Highly Efficient and Practical

## WHAT IS THE DANGER OF INVASIVE SPECIES?

Spartan Mat's uniquely engineered composite mat surface profile is designed to deliver maximum traction, dispel mud during vehicle traverse, reduce sideways movement and slippage, and deliver optimal forward traction. Our composite mats are especially effective on very soft or wetland environments, greatly reducing the amount of rutting and damage large equipment can do to a jobsite. The mats are reversible, offering a longer potential field life.

Invasive species can pose a threat to wildlife and the environment when compromised mats are moved from one location to another. They compete with native species endangering wildlife and quality of natural water sources. This threat to the environment can cost corporations millions in fines and penalties. Our solid core mats are easily washed and will not facilitate cross-contamination as many hollow-core composite mats will.

### INDUSTRIES SERVED

- Crane Work
- Temporary Access Roads
- Oil & Drilling
- Pipeline Construction
- Barge & Marine Work
- Events & Construction
- Offshore Operations
- Environmental Remediation
- Transmission Lines
- Logging & Forestry
- Military
- Free Span Bridging
- Bridge Construction
- Heavy Civil
- Heated & Safety Walkways
- Turf Protection
- Waste Removal & Cleanup
- Nuclear, Mining, Hydro, Solar & Wind
- Utilities

# Heavy Duty Access Mat

## Specifications & Features

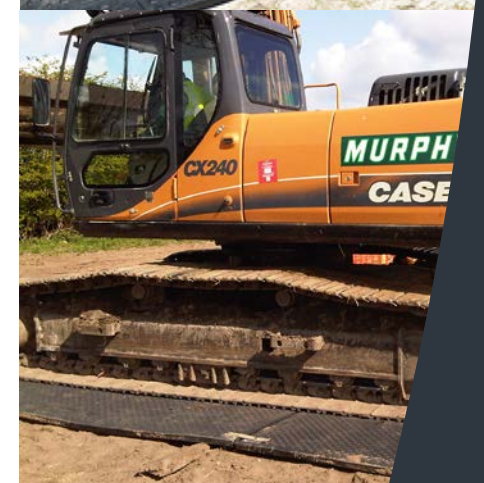

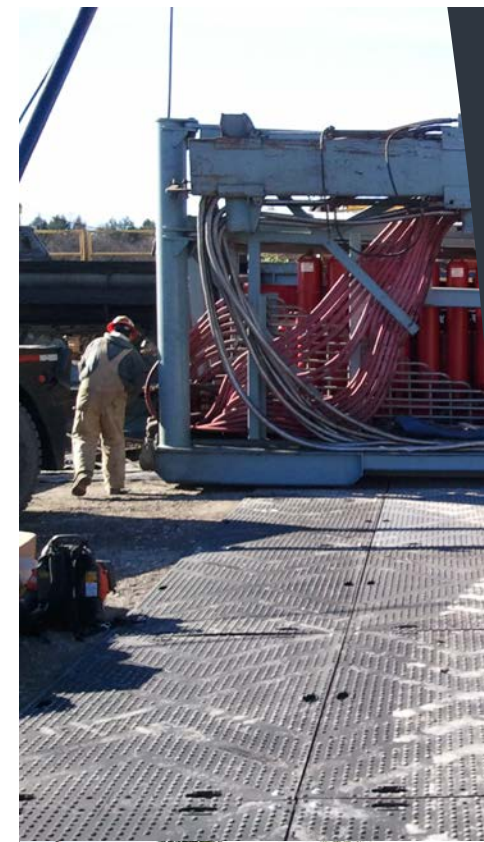

- **Thickness** 1/2" inch
- **Width** 4' feet (48" inches)
- **Length** 8' feet (96 inches)
- **Weight** 79 lbs each
- Made of **chemically inert material that is ideal for eco-sensitive areas.**
- **Does not conduct electricity.**
- **Handles a wide variety of equipment** including rubber tired vehicles, excavators, heavy machinery, cranes, & drilling rigs.
- **Solid heavy duty high-density polyethylene (HDPE).**
- Our solid light-weight mat is perfect for jobs where mats need to be handled and installed manually.
- **Basically indestructible** at certified ratings & soil conditions and **protects against invasive species and chemicals.**
- **Bears loads up to 175,000 lbs.**
- **Material** - 100% recycled or virgin high density (HD) or ultra-high molecular weight (UHMW).
- **Colors Available** - Black for recycled HD Polyethylene; choice of colors for virgin HD Polyethylene.
- **Optional Extras For Connectivity** - 'Drop in' bolt connectors; metal connectors for heavy and tracked equipment; high tensile 'flex' straps for increased safety and maximum stability.
- **Optional Extras** - Non-slip reflective markings and 'cats eyes' for night safety.
- **Environmental Features** - Weather proof, water and chemical resistant; HD Polyethylene is recycled and resistant to acids, alkalis & solvents.
- **Traction** - Raised nubs for efficient traction and mud dispersal; reversible pedestrian surface.
- **Guarantee** - 1-year warranty with a field life of 10 years when used as recommended.

### Compare & Save

- ✓ Reduce transportation costs by shipping more mats per load compared to other composite mats.
- ✓ More weight bearing than other composite mats.
- ✓ 25% more linear footage per truckload means huge savings!
- ✓ Mat size designed to fit more job requirements.

### Ask Us About The Following

- ✓ Mat Rental Programs
- ✓ Purchase & Buyback Programs
- ✓ Mat Laydown & Pick Up Services
- ✓ Used Mat Sorting, Grading & Recycling
- ✓ Mat Cleaning & Waste Removal

#### INDUSTRIES

Mats have a place in almost all industries. The challenge, however, is to know which matting solution is the ideal fit for your type of work, equipment, personnel, environment settings and budget. Spartan Mat can work within your industry and company parameters to tailor fit the right mat, for the right application and at the right price.

#### INNOVATION

Spartan Mat actively works on the creation of better and more effective products, processes, services, technologies and ideas. Innovate. Create. Execute. We continually look for high-caliber ideas that improve environmental protection, customer safety and beneficial ways to help our customers save money.

#### ENVIRONMENT

At every possibility, Spartan Mat seeks the cooperation of local authorities, community members and companies to protect biodiversity and environmental habitats. Simple steps can be taken to control erosion, cross-contamination and other harmful effects often caused by erroneous construction practices.
